Profile

I'm an experienced React.js/Next.js Developer with a strong background in building dynamic, scalable web applications using JavaScript and TypeScript. I have a solid grasp of both front-end and back-end technologies, especially React, Express, and MongoDB. I enjoy crafting intuitive user interfaces and managing state with tools like Redux and Zustand. I'm also comfortable with cloud deployment platforms like Vercel and Netlify, and I hold a Google Cloud Platform certification, reflecting my cloud expertise. I'm passionate about building web apps that prioritize the user experience while delivering fast and reliable performance.
